**INTERNET SERVICE
THAT WORKS**

Corporate Profile

TODAY Communication Co., Ltd is a exciting Internet service provider (ISP) for businesses and homes, meeting the growing demand for data communication services in Cambodia.

We provide first-rate Internet and network solutions to large corporate entities as well as residential and SME customers. Our team of experts and extensive fiber optic network enable us to provide a superior product with the best customer service in Cambodia.

Vision:

Our vision is to be the premier network solutions partner for homes and businesses across Cambodia. We hope you will join us.

Mission:

To provide Cambodia with superior internet connectivity services by focusing on quality, reliability, and customer satisfaction.

Our Business

TODAY Communication delivers complete solutions in the field of networking technology. We focus on 3 main lines of business: business solutions, residential solutions, and value added services.

Business Solutions:

TODAY Communication specializes in technology solutions for businesses. Our infrastructure is unrivaled in Phnom Penh and Province. Our Internet and VPN network is completely underground and 100% fiber optic. We use some of the most advanced technology in Cambodia, so you can be confident that your data is being transmitted by that fastest and most secure means possible.

In addition to our advanced VPN and broadband internet solutions, TODAY Communication offers security and network continuity services for businesses. We can help your organization ensure the safety and integrity of your network, data, and business operations. Our focus on customer satisfaction is unrivaled.

Residential Solutions:

We provide superior internet connectivity services by focusing on quality, reliability, and customer satisfaction. With a fully integrated billing, support and service system, TODAY Communication offers a customer experience that has never been seen in Cambodia before. We guarantee that our cutting-edge customer service system is the best in the country.

Value Added Services:

Additional services available from TODAY Communication include technology consulting, networking solutions and implementations, security systems, web hosting, and much more.

History

In April of 2016, TODAY Communication was granted a license to offer Internet services in the Kingdom of Cambodia by the Telecommunications Regulator of Cambodia (TRC). We began offering limited services to the public beginning August 6, 2016. Since then, there has been no stopping our rapid growth, and we are now considered one of the top internet providers in the kingdom.

Network Coverage

Currently, TODAY Communication has network coverage in Phnom Penh, Ta khmau, Siem Reap, Battambang, Sihanouk Ville, Poi Pet, and Bavet. We are expanding fast and expect to have service available other provinces soon.
