OUR SERVICES

Dedicated Broadband Internet (DBI) is a premium offering designed for large enterprises with heavy internet usage.

Business Broadband Internet (BBI) is designed for small and medium-sized enterprises (SME) who depend on fast and reliable Internet connections.

TODAY Fiber is a broadband Internet service aimed for residential customers over TODAY latest FTTH access network.

TODAY Layer 2 Virtual Private Network (L2 VPN) lets you manage point-to-point and point-to-multipoint connectivity, giving you the ability to communicate and exchange information between two or any sites you need.

Dark Fiber gives you metropolitan area network (MAN) connectivity at the speed of light. Connect to sites across Phnom Penh faster and more reliably than your local intranet.

TODAY xFast is cost-effective enterprise-grade connectivity that provides high speed and excellent performance.

Reliable - Never fear service interruptions and Our network is 100% underground.

Fast Accelerate - Your business to the speed of light! Experience the difference of 100% fiber solutions.

Today Communication is connection local internet exchange, international exchange, government, University and many more.

Today Communication is committed to great customer service and reliable high speed service.

Light up your web experience at business and home with unlimited and high speed internet.
